

Minhaj PK

SOFTWARE DEVELOPER

✉ minhajmsdev@gmail.com ☎ +91 8086464679 📍 Kerala, India 🔗 [LinkedIn](#) 🐙 [GitHub](#) 🌐 [Portfolio](#)

Professional Summary

Software Developer with 6 months of industry experience delivering web and mobile applications using React, TypeScript, Capacitor, Python, and Django. Hands-on experience in feature delivery, code reviews, debugging, testing, API development, and technical documentation. Comfortable contributing across frontend, backend, and release workflows.

Experience

Software Developer

Hound Mobility, Kerala

Oct 2025 – Mar 2026

EV Fleet Platform

- Delivered web application interfaces using React and TypeScript with responsive UI practices.
- Shipped cross-platform mobile features using Capacitor.
- Implemented backend modules and APIs using Python and Django.
- Created GitHub tasks, assigned work items, and tracked progress.
- Reviewed peer pull requests and suggested code improvements.
- Wrote test cases for new features, regressions, and edge cases.
- Optimized application flows and resolved defects across frontend, backend, and mobile layers.
- Evaluated technical approaches and documented trade-offs for key decisions.

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS
- **Frontend:** React, Redux Toolkit, Tailwind CSS
- **Mobile:** Capacitor
- **Backend:** Django, Django REST Framework, Node.js, Express.js
- **Databases:** PostgreSQL, MongoDB, Firebase
- **Tools:** Git, GitHub, Postman, AWS, Vercel
- **Integrations:** Stripe, Razorpay, JWT, Socket.IO
- **Practices:** Code Review, Testing, Debugging, REST APIs, AI-assisted Development

Major Projects

Mangalya – Matrimonial Platform

[Frontend](#) | [Backend](#)

- Developed a MERN-based matchmaking platform with profile filtering and role-based access.
- Implemented JWT authentication, Stripe subscriptions, and Cloudinary media handling.
- Added real-time messaging using Socket.IO with image sharing.
- Deployed frontend on Vercel and backend on AWS EC2.

M-Fashion – E-commerce Website

[GitHub](#)

- Created an e-commerce platform with product browsing, cart, wishlist, and checkout flows.
- Integrated Razorpay payments, coupons, order updates, and refund handling.
- Implemented authentication, OTP verification, uploads, and admin management.
- Hosted on AWS EC2 with PM2 and Nginx.

Education

MERN Stack Development

2024 – 2025

Brototype, Calicut

Bachelor of Commerce (Co-operation)

2017 – 2020

Calicut University
